# SAINT JOHN OF GOD

Feast Day: March 8

John of God lived in Spain and served people in need in any way he could. He helped those who were poor, homeless, widowed, orphaned, and sick.

He was known as John of God because of all his good works. He was a person of great compassion. He died in 1550. Saint John of God is the patron saint of those who are sick and of hospitals.

John's life reminds us that we must reach out a helping hand to those who are poor and sick. We are called to see the face of Jesus Christ in others.

In the space below draw a picture of how you can help someone in need.

Saint John of God, pray for us, that we may open our hearts to those who are poor and sick.
